LEARNING WITH FUN ACTIVITIES

ANNUAL RECREATIONAL TRIPS

'One's destination is never a place, but a new way of seeing things.'

- Henry Miller

Activities outside the classroom have symbolic benefits for students and help to bring learning to life. They inspire students to establish knowledge, understanding, and skills beyond the classroom, through educational activities by refreshing themselves. Bahria Town School and College recognizes the significance of these experiences by including such trips to be a part of its curriculum and arranges recreational trips for its students in order to provide them a mental and physical refreshing break from their tough academic routine. Therefore, the students were taken to the trips where they enjoyed immensely and made memories for life. The teachers and the children developed a strong bond by spending the day together only for amusement. Such trips are really helpful for children to open up, socialize themselves and get to know each other outside the campus. This year the students of Sector B and F, Junior School were taken to 'Fun Factory' in the Emporium Mall; the students of Orchard Campus (junior) were taken to Wonder World and the senior students visited the Greenfield Country Club. Whereas the students of Sector B, Senior visited The Oasis Country and Golf Club, and the senior students of Sector F visited the Army Museum.
